

Stock No. F270950

# Patio Heater

**MODEL NO: MH40PH**

- **Powerful 40,000 BTU Heater**
- **Quality Stainless Steel Finish** - Components manufactured from stainless steel to insure years of dependable performance. (NOTE: base is polished heavy guage chrome plated steel for maximum stability).
- **Energy Efficient Design** - Radiates heat 360° - generates more heat than competitors with less gas usage (validated by thermal image testing).
- **Adjustable Table** (Patent Pending) - Exclusive milled finish, offered as standard, turns the heater into an entertainment center.
- **Innovative Wheel Design** (Patent Pending) - Hide-a-Way wheels make transportation easy. Wheels are hidden while the unit is in operation.
- **Controls** - Operator friendly, reliable Piezo igniter; control knob has off, pilot position, and low to high variable.
- **Variable Heat** - Provides maximum comfort. Most competitors only offer low and high setting.
- **Designed For Safe Operation** - Heater features a flame safety shutoff that automatically shuts off the gas supply if the flame goes out. Also features a wind resistant pilot light and tip switch.
- **Insect Proof** - Design eliminates possibility of small insects entering the gas train and blocking flow.
- **Easy To Assemble** - Easy to read and understand instructions; fasteners are individually packed to eliminate confusion.
- **Height** - 7 ft.
- **Warranty** - 1 Year Residential; 90 Days Commercial
- **Shipping Weight** - 67 lbs.
- **Gas Supply** - Utilizes 20 lb. LP propane cylinder (Not Included)
- **Operating Time** - 10.8 hours at max rate on full 20 lb. LP cylinder
