

aurora™

lightest weight with the warmth of wood and superior value
get a strong start and a lighter load

With the dawn of your career you want the best. The Aurora™ is a flawless investment in your future and the ideal first table for anyone who wants the best possible start. Every table is loaded with 1400 lbs. before it leaves the factory to assure it can withstand heavy use, yet the Aurora™ is still lightweight enough to carry easily. These details are a real asset to your career.

Come into the light ... get an OAKWORKS® and let success shine down on you!

Details make the difference:

With the Integra Hinge™ and the UniLock™ found on the Nova plus:

1 PATENTED CABLE LOCK SYSTEM - Patented, engineered and comprehensively tested to offer exceptional strength, stability and durability in a wooden portable table. **2 SPECIALLY ENGINEERED LEG EXTENSIONS** - Optimal surface to surface contact and substantial leg bracing for truly reliable strength and durability at every height setting. **3 WOODEN KNOBS WITH EASY GRIP BAND** - Functional beauty with easy grip band resistant to oil and dirt. **4 INDESTRUCTIBLE NYLON LEG BLOCKS** - Indestructible and unsplitable, the nylon leg blocks ensure leg rigidity. **5 UNILOCK™** - This patent-pending closure system is easy to use and won't rust, rattle or break. The safety design prevents scrapes and bruises. When used with the Shiatsu option the UniLock™ design prevents marred floors.

Shown with Ultimate Access End Panel option.
