## Adjustable Rolling Stool Assembly Instructions

1. Place the top cushion upside down on a flat surface.

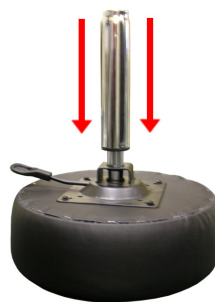

2. Use all four screws to secure the base plate to the cushion.

3. Select the cylinder and point the white tip down over the base plate

4. Push the cylinder down into the center of the base plate until secure.

5. Place the wheel assembly over the cylinder, wheels-up, and push to secure. Turn the stool over and place on a flat surface and sit on the cushion to press all parts together.
