

Inversion therapy is a natural way to relieve back pain, increase circulation and reduce stress and tension on the body.

The benefits of inversion have been known for thousands of years and include: increased oxygen to the brain and cells, removal of toxins, increased physical and mental energy, reduced anxiety and stress, lymphatic drainage, plus an effective treatment for many conditions of the spine and back.

Indulge yourself and enter the world of Inversion Therapy. Let the stress of the day pass you by, revitalize your energy level or restore your body after physical activity.

QUALITY

The *Motion Gravity Table* is the most rugged Inversion Table available on the market. The heavy-duty features are made for the high-standards of medical use.

REDUCE STRESS ON SPINE

The *Motion Gravity Table* not only helps to relieve back pain with almost instant results, but is a prevention aid for future back problems and injuries by combining decompression, flexibility and strengthening therapy.

INCREASE CIRCULATION

Ideal for increasing circulation throughout the body by simply using your own bodies leverage. You are in complete control as you raise and lower your arms causing the table to have a rocking motion and. This soothing oscillation action will flush your bodies toxins and revive your energy level.
