

Assembly Instructions for Drafting Chair No. DC204

1. Remove all components and parts from the carton. Insert the top of the backrest support T-bar into the backrest connector and screw into the backrest.
2. Screw the seat plate onto the bottom of the seat cushion together with the teardrop footrest using screws and washers. Slide the backrest support bar into the seat plate and secure with adjustment knob and two washers.
3. Insert casters into the five-star base.
4. With the five-star base set on the floor, insert the gas cylinder, aligning the hole in the seat plate with the top of the gas cylinder. Press down firmly to secure.

Preventative Maintenance and Warning:
Use this product only for seating one person at a time. Do not use it as a ladder or step stool. Be sure that all screws are tightened completely. Every four or five months, or as needed, it is important to check that all screws and knobs are tightened securely as they may loosen under normal use. If any parts are missing, broken or damaged, discontinue use. Failure to follow these warnings can result in serious injury.
