Neptune Rower features

Performance Monitor

Program for time (elapsed or goal), stroke count (cumulative or goal), tempo signal. Display strokes per minute and calories. Large clear display, designed to monitor and motivate.

Fluid Resistance

Tough polycarbonate tank with marine grade, stainless steel internals. Variable water volume from 9 to 17 litres.

Ergonomic Handle

Intelligently designed to prevent strain on arms, wrists and hands. Belt drive ensures you only feel the fluid resistance.

In-Built Transit Wheels

Light and easy to move on any surface.

Stores upright in just
53 x 51cm / 21 x 20"

Pivoting Footboards

Perfectly balanced to pivot on the line of thrust. No need to adjust for foot size. Comfort, strength and ease of use.

Seat Mechanism

Super comfortable seat running on precision bearings and rollers for absolute smoothness.

Superior Seat Rail

Highest quality anodised aluminium for smoothness, appearance and durability.

Outstanding Attention to Detail

Designed and engineered by craftsmen using only the highest quality components to ensure complete satisfaction of function, performance and reliability.

Domestic Warranty (see owners manual for details)

Frame: 5 years
Tank and seals: 2 years
Mechanical components: 2 years
