

Model AirMedic

**More Filtration. More Features.
Better Value. Guaranteed!**

Your indoor air may be up to 100 times more polluted than outdoor air.

Count on the power of the AirMedic to provide the cleanest possible air for your home or office. The AirMedic combines a cylindrical shape with 360° air intake to remove chemicals, particles, gases and odors on the very first pass. This means a consistent and fast flow of clean, pure, breathable air. The AirMedic also features a clean air delivery rate which matches or exceeds comparable models and is backed by a solid 10 years warranty on parts and 5 years on parts & labor.

Meets DOP Test which is the equivalent to EN1822 Certification

The Filtration System:

■ Activated Mac-B¹ Carbon Filter

Adsorb thousands of chemicals, gases and odors with this deep-bed activated carbon filter featuring 18 lbs. of specially blended MAC-B virgin carbon.

■ Medical Grade HEPA

Particles are no match for this medical grade HEPA which removes 99.97% of all airborne particles as small as 0.3 microns. AllerAir systems have been found to remove particles down to 0.01 microns with close to 99% efficiency the standards of an EN 1822 certified filter. (can filter bacteria + viruses)

■ Pre-Filter

Designed to prolong the life of the HEPA filter, this pre-filter captures large particles and prevents them from clogging the HEPA.

Features:

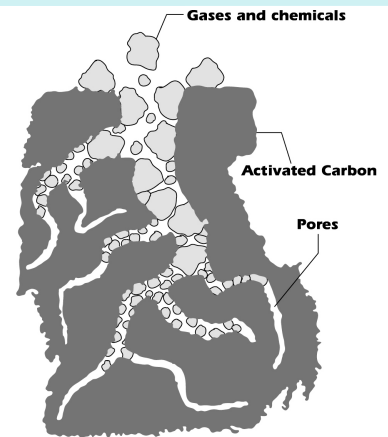

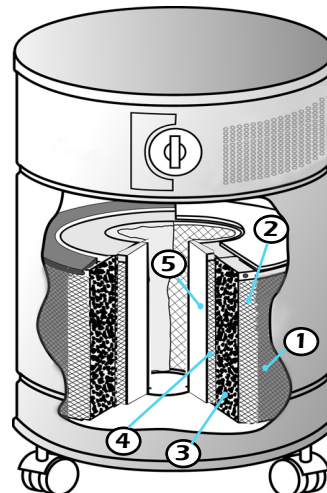

- Clean air delivery rate which matches or exceeds comparable models
- All-metal perforated casing
- 360° degree air intake
- Absolutely no neoprene, rubber or styrofoam
- Valued-added design - separate carbon and HEPA filters allows each to be changed independently
- 400 CFM blower

Maintenance

- Vacuum or change pre-filters every 3 months approximately
- Replace HEPA filter after 4 to 8 years
- Replace carbon filter after 2 to 3 years (Does not spoil for approximately 5 years in a normal home environment)

*Filter life-cycle may vary depending on the environment in which they are used

Available in Vocarb or Exec carbon blends. \$599.98 Exec / \$699.98 Vocarb

Activated Carbon adsorbs gases and chemicals

- ① Cleanable Prefilter or Carbon
- ② Antimicrobial Filter or Carbon
- ③ MAC-B, Activated Carbon Filter
- ④ Antimicrobial Filter
- ⑤ Medical grade HEPA Filter
