Sinfonia 1-Step MUT: Facts & Figures.

The Sinfonia MUT produces 20-ounce drinks 20-30 seconds faster than its former specification. It is designed for self-serve, quick-service and minimal training capacity applications.

Features:

- Two boilers; both the brew boiler and steam boiler are stainless steel
- Speed – The fastest Franke superautomatic espresso machine maintains its standard milk texture quality
- Two milk options – Typically non-fat and 1%, 2% or whole milk
- Triple espresso shots – Up to 22 grams of coffee fit in the brew cylinder
- Consistent, high-quality espresso shots - Heated metal brew group
- Standard-setting sanitation – The NSF-approved Franke MilkSystem (also available on mid-volume Franke Evolution models) operates on a pump system that systematically rinses the entire milk delivery system - from the refrigerator through the foamers; daily cleaning is fast and easy
- Inventory/Controls – Complete accounting of drinks made and cleanings
- Americanos/café crèmes – One-touch fresh brewed espresso
- Optional 3rd grinder/hopper – For high volume use or fresh espresso
- Up to 28 programmable drink options - Espressos, lattes, cappuccinos, iced drinks, americanos, or café crèmes...all at the touch of a button
- Any NSF approved refrigerator can be used with the Franke Sinfonia 1-Step MUT

	1-Step Sinfonia	Bev-Air URC20 Refrigerator	Bev-Air URC27 Refrigerator
